Nokia 8390 Power Button Replacement

This guide shows users how to disassemble the power button.

Written By: Keith

INTRODUCTION

This guide shows you how to access the power button in case or needed replacement.

TOOLS:

- Spudger (1)

Step 1 — Back Cover

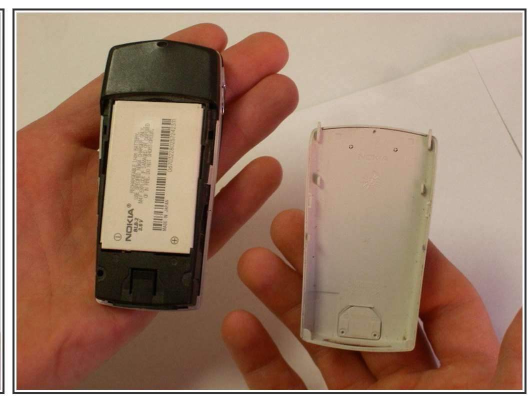

- Locate the button on the bottom of the back cover.

Step 2

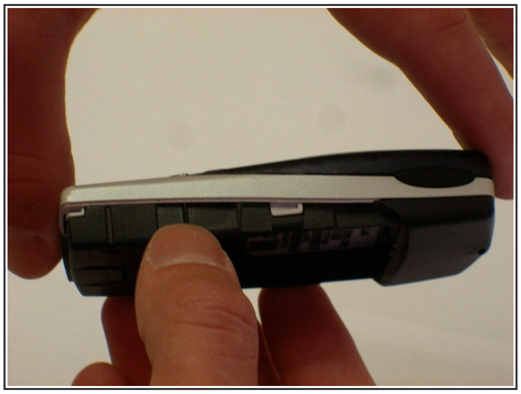

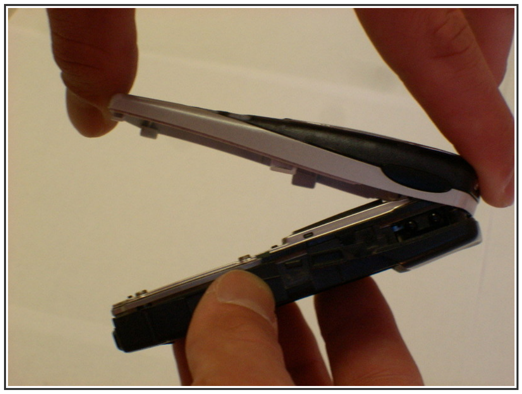

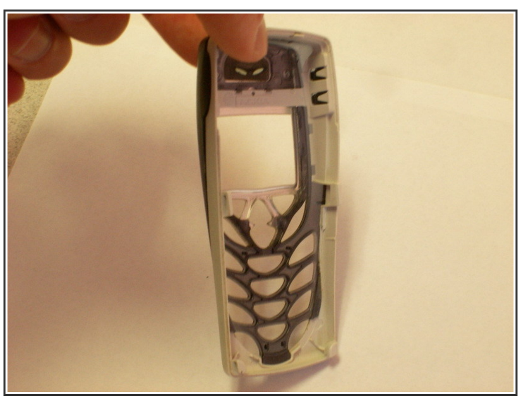

- Depress the button with your finger.
- While the button is depressed, slide the back cover off of the phone.

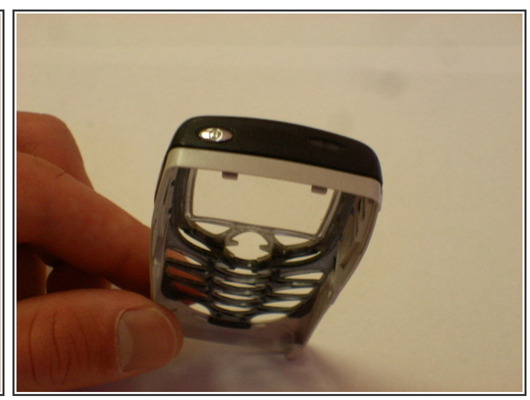

Step 3 — Outer Case

- Grasp the top and bottom of the front cover.
- Grasp the phone body with your other hand.
- Lightly pull the casing off of the phone.

Step 4 — Power Button

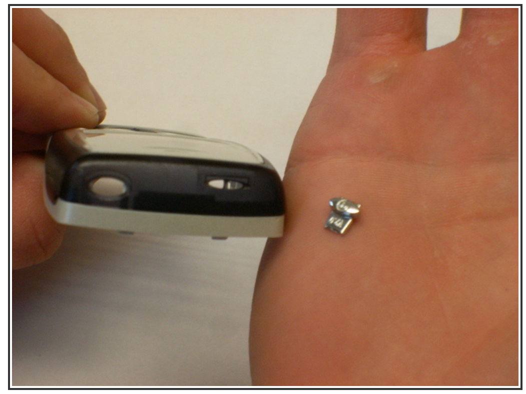

- The casing should be separated into two parts now.
- Locate the power button at the very top of the front casing.

Step 5

- Use the spudger to push the power button through the casing.

To reassemble your device, follow these instructions in reverse order.
